

Responsible Management

Shaping our Sustainable Future

We firmly believe that for our business to prosper, so too must the societies within which we live and work. Employing diverse and talented people and investing in high-quality and responsibly managed businesses is helping us build and strengthen our business for the future, while enabling more sustainable outcomes for our customers, communities and people.

Our commitment

Our commitment to be a responsible company underpins everything we do. As a signatory to the United Nations (UN) Global Compact, we are committed to upholding the principles on human rights, labour, the environment and anti-corruption. Our group companies' activities also contribute to the 17 UN Sustainable Development Goals (SDGs), whose aim is to end extreme poverty, protect the planet and ensure prosperity for all. In addition, many of our group companies are signatories to the Principles for Responsible Investment (PRI), integrating environmental, social and governance (ESG) factors into their investment processes as a way to identify both risks and opportunities to enhance long-term returns for investors.

We continuously monitor the major trends shaping our operating environment, including changing legislation, economic transformations, digitization, shifting demographics, talent attraction, changing climate and reputation. In 2018, we continued our collaboration with our group companies and third parties to learn from each other and exchange on CSR-related best practices.

Our progress is being recognized

Over the past few years, our efforts to strengthen our CSR programs, initiatives and disclosure have been recognized by well-regarded external organizations. This is true at the Power Financial level, but also at our parent company and subsidiaries.

Both Power Financial and Power Corporation are among an elite group of 127 companies worldwide that received the top score of "A" from the CDP, an organization working with investors, companies and cities on taking urgent action to build a truly sustainable economy by measuring and understanding their environmental impact.

With IGM Financial also obtaining an "A" score, earning a place on the A list, and Great-West Lifeco scoring "A-", four of the five top ranked Canadian financial services companies are members of the Power Corporation group.

In 2018, GWL Realty Advisors, Great-West Lifeco's Canadian real estate arm, was recognized as a leader in sustainability by GRESB, earning a "Green Star" ranking for the fourth consecutive year as well as a second consecutive GRESB "5 star", positioning itself among the top three participants in Canada. GRESB assesses and benchmarks the ESG performance of real asset investments, providing standardized and validated data to capital markets.
